

RE-OPENING PROTOCOLS

Contact Tracing Protocols: We do not have any reason to think that someone has become ill. This will be the routine procedure, to cover our bases. Sorry for any confusion from the unclear language!

This is our first opportunity to test out basic contact tracing protocol. This is not in response to a confirmed exposure. We don't have any reason to believe that there was any exposure as of today. Out of an abundance of caution and commitment to covenant... we will use this protocol every week!

If you feel sick in the next two weeks, please let us know so we can alert everyone who was in person and unmasked at service this Sunday.

If you feel ill, please get a test done ASAP and report your results to help us make sure everyone is as safe as possible. Contact a member of the Board, our admin assistant, or the Minister

The two week countdown starts on the Saturday before the attended service .
